Before this book introduces a novel rethinking of the whole of British history before the coming of the Romans. So many extraordinary archaeological discoveries (many of them involving the author) have been made since the early 1970s that our whole understanding of British prehistory needs to be updated. So far only the specialists have twigged on to these developments; now, Francis Pryor broadcasts them to a much wider, general audience. Aided by aerial photography, coastal erosion (which has helped expose such coastal sites as Seahenge) and new planning legislation which requires developers to excavate the land they build on, archaeologists have unearthed a

Far from being the woaded barbarians of Roman propaganda, we Brits had our own religion, laws, crafts, arts, trade, farms, priesthood and royalty. And the Scots, English and Welsh were fundamentally one and the same people.

Possession is the first major narrative history of Roman Britain for a generation. David Mattingly draws on a wealth of new findings and knowledge to cut through the myths and misunderstandings that so commonly surround our beliefs about this period. But this, too, is Francis Pryor's own story: of his passion for unearthing our past, from Yorkshire to the west country, Lincolnshire to Wales, digging in freezing winters, arid summers, mud and hurricanes, through frustrated journeys and euphoric discoveries. Evocative and intimate, Home shows how, in going about their daily existence, our prehistoric ancestors created the institution that remains at the heart of the way we live now: the family.
