Conflict Resolution Survey. This survey is only for the 70 members of the Ancestral Medicine practitioner and trainee network. Participation is entirely optional, and is encouraged for anyone directly or indirectly impacted by conflict either within or focused on the organization. Anonymous participation is not an option.

Disputes between peers as well as between supervisors-subordinates happen numerous times a week in the corporate environment. Although the win-win concept is the ideal orientation, the notion that there can only be one winner is constantly being reinforced in some cultures. This kind of mentality can be destructive when communicating with different cultural groups by creating barriers in negotiation, resolution, and compromise; it can also lead the "loser" to feel mediocre. When the win-win orientation is absent in negotiation, different responses to conflict may be observed. Strategic Approaches for Conflict Resolution in Organizations: Emerging Research and Opportunities provides emerging research on approaches for conflict resolution in organizations whereby it is possible to establish congenial ambiances in different organizations, leading to better outcomes and performance. Featuring coverage on a broad range of topics such as organizational change, leaderships roles, and organizational change, this book is ideally designed for managers, human resources officials, executives, researchers, scholars, professors, industry professionals, and students interested in the current research behind the reduction, elimination, and termination of all forms of organizational conflict.

This book brings together over 40 papers presented at the 1992 International Construction Conflict Management & Resolution Conference held in Manchester, UK. Six themes are covered, including alternative dispute resolution, conflict management, claims procedures, litigation and arbitration, international construction, and education and the future. With papers from arbitrators, architects, barristers, civil engineers, chartered surveyors and solicitors, this book represents the first multi-disciplinary body of knowledge on Construction Conflict and will act as a unique source of reference for both legal and construction professionals.

With its large population and impressive economic accomplishments over the last two decades, China has become a major player on the world stage. This collection of essays takes critical steps toward understanding the way the Chinese manage and resolve conflict. 20 chapters form the most comprehensive book ever published on the subject, one that explores both its theoretical and practical aspects.

In an effort to counteract the violent and negative conflict resolution messages children receive from the mass media, schools throughout the United States are now teaching healthy problem-solving skills on a personal level. This book presents an outlined approach to the implementation of a conflict resolution experiential group, designed to be administered in five sessions. For each session, the materials required, session time, goals, activities, and evaluation considerations are given. The hands-on tasks are designed to develop conceptual understanding about cooperative versus competitive ways to solve problems. The book provides activities for five sessions and information on evaluating the impact of the individual sessions as well as the program as a whole. Contains numerous illustrations. (JE)

Environmental conflict resolution has been used since 1974 and an official part of policymaking since the mid-1990s. This book describes the kinds of disputes where it has been applied and critically investigates its record and potential, drawing on political science, anthropology and more.
