McKinty's previous book, *Falling Glass*, was an Audible.com Best Thriller of 2011 Northern Ireland, spring 1981. Hunger strikes, riots, power cuts, a homophobic serial killer with a penchant for opera, and a young woman's suicide that may yet turn out to be murder: on the surface, the events are unconnected, but then things—and people—aren't always what they seem. Detective Sergeant Duffy is the man tasked with

trying to get to the bottom of it all. It's no easy job—especially when it turns out that one of the victims was involved in the IRA but was last seen discussing business with someone from the loyalist Ulster Volunteer Force. Add to this the fact that, as a Catholic policeman, it doesn't matter which side he's on, because nobody trusts him, and Sergeant Duffy really is in a no-win situation. Fast-paced, evocative, and brutal, *The Cold Cold Ground* is a brilliant depiction of Belfast at the height of the Troubles—and of a cop treading a thin, thin line.

"The family elements in the story - the real struggles with marriage, raising a family, making a living, and just trying to enjoy life - have broadened the book's appeal to a wider audience, primarily women who are not into technology." *DARK END OF SPECTRUM* will make you think twice before turning on your cell phone or PDA! *DARK END OF THE SPECTRUM* is a frighteningly plausible and headline ripping tale of the real threats that loom in cyberspace and beyond with a Michael Crichton realism. Based on the author's years of research into the hacker culture. *DARK END OF THE SPECTRUM* is a thriller that will connect with everyone with a cell phone, PDA or wireless device. When a group of digital terrorists known as ICER take over the US power grid and the cell phone network, they give the government an ultimatum -

bomb the borders of Afghanistan and Pakistan with nuclear weapons to put an end to Al-Quada or they will start downing commercial airliners. When the government refuses, ICER destroys most of the downed aircraft in airports all over the country. When ICER sends a pulse that will kill millions on the East Coast, only security expert Dan Riker can stop them, but ICER has kidnapped Dan's family. Will Dan save his family or will millions die?

another opinion on the case, so he enlists advice from former Northeast Ohio detective, Paul Treadwell, now the owner of the Brown Pelican Restaurant in Duck. Two years ago, Paul and his wife, Megan, a former nurse, won a sizable fortune in the Ohio Lottery. After careful consideration, they decided to relocate and become permanent residents of the Outer Banks. When Paul finds another piece of unusual evidence at the ransacked cottage, Tate's original suspicions are confirmed. A homicide has been committed here disguised as a robbery gone horribly wrong. Together with other highly trained and motivated law enforcement personnel they forge ahead in order to identify and apprehend a deadly intruder to these shores who meticulously continues his killing spree as the tourist season rolls along. The good guys know that there is no such thing as a "perfect" homicide. Even the craftiest of killers makes a mistake or two. Nothing new there. The problem for the good guys is that their killer hasn't gotten the memo on that one. He's good. He's exceptionally good at killing people and getting away with it.
