When Obama stated that if elected, he would keep his BlackBerry, debate echoed through Washington and among the ranks of the Secret Service. What would it be like to have a president who could Twitter, send text messages, and navigate the web with ease? What would it be like to receive a text message from inside the Oval Office and, most importantly, what would it say? Now, for the first time, We The People are privy to our new leader's epistolary back-and-forths on his wily hand-held device. We're about to discover that his emails (and the replies, from his wife and daughters, Biden, Palen, Rush, Hannity, the new first puppy, and even Bush) are so tuned in to the language of electronic correspondence they come hilariously close to the brink of legibility. This giftable, imagined glimpse into Obama's beloved BlackBerry traverses the mundane and momentous contours of the Commander in Chief's life, from security briefings to spam, basketball practice to domestic bliss, and the panic of cops-I-hit-reply-all, to, of course, the trauma of dealing with the First Mother In Law. To wit: BidenMyTime: Hey U, wachta doin? BARACKO: M rly busy BidenMyTime: Right :(Can I iv at 4:45?

The basis for Stanley Kubrick's masterpiece, Dr. Strangelove: A chilling Cold War thriller in which unchecked power unleashes total nuclear disaster. Air Force Brigadier General Quinten is a dying man suffering from the paranoid delusion that he can make the world a better place by ordering a full-scale nuclear attack on the Soviet Union. Receiving word of the attack already underway, the president of the United States and his advisors now must work frantically to stop it. The US bombers are to be shot down-but a lone bomber called the "Alabama Angel" escapes and flies on to complete its lunatic mission, ignoring the president's orders. A ghastly and chilling vision of what might happen when profound and deadly power is put into the wrong hands, this classic thriller continues to serve as a warning in today's tumultuous political climate.
