A biography of the quarterback for the Pittsburgh Steelers who has led that team to three Super Bowl victories.

A faithful little dog must survive on his own in the wild in this evocative tale of loss and reunion from acclaimed poet Marilyn Nelson and the inimitable Timothy Basil Ering. (Ages 4-7) Abba Jacob is a monk who lives on a far, far away island with his loyal rat terrier, Snook. Every day, from the wee hours of dawn till the sun sets over the sea, Snook keeps Abba Jacob company as he prays or works, tending the gardens or fixing the plumbing of the little hermitage he calls home. But when the two are separated by a ferocious storm, Snook must learn to fend for himself in the wild, all alone in a world of fierceness and wonder. Will he ever again hear the loving voice that he waits for? Simply and lyrically told by award-winning poet Marilyn Nelson and beautifully illustrated by Timothy Basil Ering with wit, warmth, and affection for the natural world, this captivating tale of friendship lost and found conveys the power of faith against all odds.

In this book, John Gribbin tells the story of the people who made science and the turbulent times they lived in. As well as famous figures such as Copernicus, Darwin and Einstein, there are also the obscure, the eccentric, even the mad. This diversecast includes, among others, Andreas Vesalius, landmark 16th-century anatomist and secret grave-robber; the flamboyant Galileo, accused of heresy for his ideas; the obsessive, competitive Newton, who wrote his rivals out of the history books; Gregor Mendel, the Moravian monk who founded modern genetics; and Louis Agassiz, so determined to prove the existence of ice ages that he marched his colleagues up a mountain to show them the evidence.

This slender volume was originally published in 1928. It was the author's "purpose to collect all available records and present them as accurately as possible in an interesting way so that they may serve as a ready history reference." These pages contain the story of Cazenovia: its founding and early settlement, its roadways and waterways, its industries and institutions, its churches and early schools (including the Cazenovia Seminary), and its culture.
