considering a range of elements such as inventory costs, production costs, lead time, capacity, working hours, inventory levels, available storage...etc.

What is the difference between MPS and MRP?

As Ptak noted, MRP and production planning and

Read Book
Oracle Master
Scheduling software
operate in synergy –
with the distinction that
production planning is
more concerned with
operations, rather than
materials. Production
planning and scheduling
software is designed to
extend (not substitute)
the functionality of
MRP in four primary
ways.

Plan Generation |
With a shrinkage rate of .2 (20%), Oracle Master Scheduling/MP and Supply Chain Planning assumes you lose 20% of any current discrete jobs and 20% of any suggested planned orders. In this example,
