An immensely persuasive work of literary criticism that opens a new chapter in the American dialogue on race—and promises to change the way we read American literature. Morrison shows how much the themes of freedom and individualism, manhood and innocence, depended on the existence of a black population that was manifestly unfree--and that came to serve white authors as embodiments of their own fears and desires. According to the Chicago Tribune, Morrison "reimagines and remaps the possibility of America." Her brilliant discussions of the "Africanist" presence in the fiction of Poe, Melville, Cather, and Hemingway leads to a dramatic reappraisal of the essential characteristics of our literary tradition. Written with the artistic vision that has earned the Nobel Prize-winning author a pre-eminent place in modern letters, *Playing in the Dark* is an invaluable read for avid Morrison admirers as well as students, critics, and scholars of American literature.

Examines the effect of a racially divided society on nineteenth century American writings, and discusses works by Poe, Hawthorne, Melville, and Twain

Best known for her novels, Toni Morrison enters the realm of literary criticism to draw attention to the often overlooked significance of race in literature. Demonstrating 'the impact of racism on those who perpetuate it,' she shows that the quintessentially American literary themes of freedom and individualism depend on the existence of a black population that is manifestly not free. Reading between the lines of classic American fiction, Morrison argues that literature is never raceless, and that equating whiteness with universality is the problematic element overlooked in literary studies. Morrison denounces the 'color-blind' approach, and asks that we open our eyes to the realities of race, representation, and power. Book jacket.

Toni Morrison's *Playing in the Dark: Whiteness and the Literary Imagination* is a seminal piece of literary criticism, and a masterclass in the critical thinking skill of interpretation. Interpretation plays a vital role in critical thinking: it focuses on interrogating accepted meanings and laying down clear definitions on which a strong argument can be built. Both history and literary history in the US have frequently revolved around understanding how Americans define themselves and each other, and Morrison's work seeks to investigate, question, and redefine one of the central concepts in American history and American literary history: color.. Morrison turned to the classics of American literature to ask how authors had chosen to define the terms 'black' and 'white.' Instead of accepting traditional interpretations of these works, Morrison examined the way in which 'whiteness' defines itself through 'blackness,' and vice versa. Black bondage and the myths of black inferiority and savagery, she showed, allowed white America to indulge its own defining myths - viewing itself as free, civilized, and innocent. A classic of subtle and incisive interpretation, *Playing in the Dark* shows just how crucial and how complex simple-looking definitions can be.

What is race and why does it matter? Why does the presence of Others make us so afraid? America's foremost novelist reflects on themes that preoccupy her work and dominate politics: race, fear, borders, mass movement of peoples, desire for belonging. Ta-Nehisi Coates provides a foreword to Toni Morrison's most personal work of nonfiction to date.

NATIONAL BESTSELLER • Here is the Nobel Prize winner in her own words: a rich gathering of her most important essays and speeches, spanning four decades that "speaks to today's social and political moment as directly as this morning's headlines" (NPR). These pages give us her searing prayer for the dead of 9/11, her Nobel lecture on the power of language, her searching meditation on Martin Luther King Jr., her heart-wrenching eulogy for James Baldwin. She looks deeply into the fault lines of culture and freedom: the foreigner, female empowerment, the press, money, "black matter(s)," human rights, the artist in society, the Afro-American presence in American literature. And she turns her incisive critical eye to her own work (*The Bluest Eye*, *Sula*, *Tar Baby*, *Jazz*, *Beloved*, *Paradise*) and that of others. An essential collection from an essential writer, *The Source of Self-Regard* shines with the literary elegance, intellectual prowess, spiritual depth, and moral compass that have made Toni Morrison our most cherished and enduring voice.

Racism in America has been the subject of serious scholarship for decades. At Harvard University Press, we've had the honor of publishing some of the most influential books on the subject. The excerpts in this volume—culled from works of history, law, sociology, medicine, economics, critical theory, philosophy, art, and literature—are an invitation to understand anti-Black racism through the eyes of our most incisive commentators. Readers will find such classic selections as Toni Morrison's description of the Africanist presence in the White American literary imagination, Walter Johnson's depiction of the nation's largest slave market, and Stuart Hall's theorization of the relationship between race and nationhood. More recent voices include Khalil Gibran Muhammad on the pernicious myth of Black criminality, Elizabeth Hinton on the link between mass incarceration and 1960s social welfare programs, Anthony Abraham Jack on how elite institutions continue to fail first-generation college students, Mehrsa Baradaran on the racial wealth gap, Nicole Fleetwood on carceral art, and Joshua Bennett on the anti-Black bias implicit in how we talk about animals and the environment. Because the experiences of non-White people are integral to the history of racism and often bound up in the story of Black Americans, we have included writers who focus on the struggles of Native Americans, Latinos, and Asians as well. Racism in America is for all curious readers, teachers, and students who wish to discover for themselves the complex and rewarding intellectual work that has sustained our national conversation on race and will continue to guide us in future years.

In her final novel, Willa Cather departed from her usual Great Plains settings to plumb the turbulent relationships between slaves and their owners in the antebellum South. *Sapphira and the Slave Girl* is set in Virginia just before the Civil War. *Sapphira* is a slave owner who feels she has come down in the world and channels her resentments into jealousy of her beautiful mulatto slave, Nancy. *Sapphira's* daughter Rachel, an abolitionist, opposes her mother's increasingly shocking attempts to persecute Nancy. The struggles of these three strong-willed women provide rich material for Cather's narrative art and psychological insight. **BONUS:** The edition includes an excerpt from *The Selected Letters of Willa Cather*.

In this revised introduction to Nobel Laureate Toni Morrison's novels, Jan Furman extends and updates her critical commentary. New chapters on four novels following the publication of *Jazz* in 1992 continue Furman's explorations of Morrison's themes and narrative strategies. In all Furman surveys ten works that include the trilogy novels, a short story, and a book of criticism to identify Morrison's recurrent concern with the destructive tensions that define human experience: the clash of gender and authority, the individual and community, race and national identity, culture and authenticity, and the self and other. As Furman demonstrates, Morrison more often than not renders meaning for characters and readers through an unflinching inquiry, if not resolution, of these enduring conflicts. She is not interested in tidy solutions. Enlightened self-love, knowledge, and struggle, even without the promise of salvation, are the moral measure of Morrison's characters, fiction, and literary imagination. Tracing Morrison's developing art and her career as a public intellectual, Furman examines the novels in order of publication. She also decodes their collective narrative chronology, which begins in the late seventeenth century and ends in the late twentieth century, as Morrison delineates three hundred years of African American experience. In Furman's view Morrison tells new and difficult stories of old, familiar histories such as the making of Colonial America and the racing of American society. In the final chapters Furman pays particular attention to form, noting Morrison's continuing practice of the kind of "deep" novelistic structure that transcends plot and imparts much of a novel's meaning. Furman demonstrates, through her helpful analyses, how engaging such innovations can be.
