guided me from the beginning of formulating my research question until the end of the writing up process. In between, it introduces the strength and weaknesses of qualitative and quantitative ...

Research Methods in International Relations by Christopher ...

Statistical analyses (or 'quantitative research') are widely used methods in the study of politics and international relations. While most students in our MPhil programme do not use such methods in their own research, it is likely that they will come across works that do in their course work or when reading about the topic of their research.
