Sound Reproduction: The Acoustics and Psychoacoustics of Loudspeakers and Rooms, Third Edition explains the physical and perceptual processes that are involved in sound reproduction and demonstrates how to use the processes to create high-quality listening experiences in stereo and multichannel formats. Understanding the principles of sound production is necessary to achieve the goals of sound reproduction in spaces ranging from recording control rooms and home listening rooms to large cinemas. This revision brings new science-based perspectives on the performance of loudspeakers, room acoustics, measurements and equalization, all of which need to be appropriately used to ensure the accurate delivery of music and movie sound tracks from creators to listeners. The robust website (www.routledge.com/cw/toole) is the perfect companion to this necessary resource.

Recovery of the Lost Good Object brings together the hugely influential papers and seminars of Eric Brenman, revealing his impact on the development of psychoanalysis and allowing a better understanding of his distinctive voice amongst post-Kleinian analysts. Gathered together for the first time in one volume, Eric Brenman's papers give the reader a unique insight into the development of his clinical and theoretical thinking. They highlight many issues which are relevant to the present debate about psychoanalytic technique, including: The Narcissism of the Analyst Hysteria The Recovery of the Good Object Relationship Meaning and Meaningfulness Cruelty and Narrowmindedness The Value of Reconstruction in Adult Psychoanalysis The second half of the book documents three of the clinical seminars and covers the transgenerational transmission of trauma, the analysis of borderline pathology and the psychoanalytical approach to severely deprived patients. This collection will be welcomed by all psychoanalysts and psychotherapists, and other members of the helping professions interested in investigating the valuable contribution that Eric Brenman has made to contemporary psychoanalysis.

poetry and insight from Eihei Dogen, the thirteenth-century founder of the Soto school of Zen. Shohaku Okumura—renowned for his translations of and magisterial teachings on Dogen—guides the reader through the rich layers of metaphor and meaning in “ Sansuikyo, ” which is often thought to be the most beautiful essay in Dogen ’ s monumental Shobogenzo. His wise and friendly voice shows us the questions Dogen poses and helps us realize what the answers could be. What does it mean for mountains to walk? How are mountains an expression of Buddha ’ s truth, and how can we learn to hear the deep teachings of river waters? Throughout this luminous volume, we learn how we can live in harmony with nature in respect and gratitude—and awaken to our true nature.
